

ADOPT-A-CLASS

Lakemont Elementary

Did you know the average teacher **spends over \$500 out of their own pocket** to enhance the classroom experience for our children? What are they supposed to do when public school budgets are so tight? This is where **YOU** can help. Adopt a class today!!! This is an amazing program where the money goes **directly** to the adopted teacher to purchase student books, periodicals, computer software, science programs, art supplies, and more!

The suggested donation is \$25; however, please give whatever you feel comfortable giving. Names of families or businesses will be recognized on a sign in the adopted classrooms.
